The Grand Junction Fire Department responded to report of fire in a structure at 746 23 ½ Road with 5 units and a total of 16 personnel. First unit on scene, E-13, reported fire in the shop area of the business and the structure was fully involved. The area of the shop is approximately 20' x 50'. They were able to knock the fire down fairly quickly with the use of several hose lines and a water supply from a hydrant. They were able to contain the fire to the shop area and none of the exposures were damaged by the fire. There was a report of propane tanks in the building and the crew also found welding tanks inside but none of them caused any issues with fire extinguishment. There were no occupants in the structure when the firefighters arrived.

**Cause of the fire is under investigation at this time.  
Damage is estimated in excess of \$50,000.00 but that**
