NEWS RELEASE

Grand Junction Police Asking for Public's Cooperation With Increasing Traffic Safety At Canyon View Park

(Grand Junction, CO) – Beginning this Saturday, April 12th, at Canyon View Park the Grand Junction Police are requesting the public's help to increase traffic safety by not parking vehicles along the south side of G Rd. There will be traffic cones in place that will also designate no parking just east of the south entrance on G Rd. Parking will be permitted along the north side of G Rd where the "No Parking" signs are covered with a bag.

We would encourage the use of the north parking lot near the softball fields. We understand this may be an inconvenience to some but we believe it will improve traffic safety and overall usage of the facility. We appreciate your cooperation and support.

The City of Grand Junction will be looking into long range improvements and solutions for parking within Canyon View Park.
