Did You Know?...
On June 22nd, 2019, the Grand Junction Rotary Club and the City of Grand Junction Parks Department partnered in a community tree planting project at Canyon View Park. The City of Grand Junction Parks department built a new soft surface trail that runs from the east of the playground wrapping around the pond to the north meeting up with the sidewalk between the ponds. The Grand Junction Rotary Club donated $10,000 to purchase 100 trees that were planted in this area signifying the club’s 100-year history in Grand Junction and the anniversary is being memorialized by this Rotary Arboretum project.

This month's scavenger hunt is sponsored by Grand Junction Rotary Club!
None of this would be possible without the amazing support and help of our community sponsors!

Scavenger Hunt Clues:

1. Although it is hidden well, it’s not behind any locked fence.
2. We are serving up clues but the prize is not by the tennis courts.
3. If you want your hands on the prize don’t waste time looking by the handball court.
4. This should be a “major” clue for those keeping “score.”
