Did You Know?...
Paradise Hills is located on the North side of Grand Junction, off 27 Road and H Road. It’s nestled in the quaint neighborhood subdivision of Paradise Hills, located at the intersection of Bahamas and Lanai Drive. The City acquired the park back in 1994. Over the years, the park has gained attraction among the neighborhood and is the perfect family park for fun and play. There is one shelter located on the East end of the pond that features picnic tables and plenty of shade. The pond which sits at the forefront of the park is maintained by the neighborhood’s HOA. The playground was installed in 1998, along with the basketball court and two horse shoe pits. Featuring a concrete trail (1,748 feet in length - just a little over 1/4 of a mile!) that surrounds the park, it’s a great place for walking, running, and biking.
