### FOR IMMEDIATE RELEASE

#### **Grand Junction Joins Statewide Online Sales Tax Portal** *Single online portal for sales tax streamlines process for businesses*

**GRAND JUNCTION, Colo. April 16, 2024** -- The City of Grand Junction in partnership with the Colorado Department of Revenue (CDOR) and the Governor's Office of Information Technology (OIT), has joined Colorado's Sales and Use Tax System (SUTS) online portal.

The SUTS portal will allow Colorado businesses to file sales tax returns for the participating home rule jurisdictions, state, and state-administered jurisdictions, from one convenient online portal at [Colorado.gov/Revenue/SUTS](https://Colorado.gov/Revenue/SUTS). Additionally, the portal also includes a Geographic Information System (GIS), which is a tax rate lookup tool that allows businesses to find the tax rate of any jurisdiction simply by entering an address. Key features of the portal include:

- Single point of remittance and a uniform remittance form
- GIS tax rate lookup tool
- Taxability and exemption matrix
- Ability to calculate tax rates on items with differing tax rates in the same jurisdiction
- A record of the history of any changes

Colorado has a unique tax landscape with 223 tax jurisdictions, of which 70 jurisdictions are home rule self-collecting tax jurisdictions. These jurisdictions can establish their own tax base, requiring businesses to file and remit tax directly to the municipality/county.

The SUTS portal will be a vital tool in simplifying the collection and remittance of sales tax for businesses of all sizes in the state of Colorado.

Visit [Colorado.gov/Tax/SUTS-info](https://Colorado.gov/Tax/SUTS-info) for more information regarding the Sales and Use Tax System (SUTS).
