## Truck Routes

# Truck Routes Grand Junction Mesa County

Public Works & Planning  
Division of Transportation Engineering  
333 West Ave, Bldg D  
Grand Junction, CO 81501-7216  
(970) 256-4110 | [www.gjcity.org](http://www.gjcity.org)

## Truck Route Definitions

### Primary Truck Routes

These routes are recommended for use by trucks that have no origin or destination within the Grand Junction/Mesa County urban area.

### Secondary Truck Routes

Trucks with an origin or destination within the urban area are requested to remain on these routes until reaching a point closest to their destination.

### Hazardous Material Routes

The Colorado State Patrol has designated the following State Highways as Hazardous Material Routes:

1. Interstate 70
2. I-70 Business Loop from Highway 141 to Interstate 70
3. Highway 141 from Highway 50 north to Interstate 70 Business Loop
4. Highway 50 south of the north junction of Highway 141

No other streets, roads, or highways within the Grand Junction/Mesa County urban area are designated as Hazardous Material Routes.

For maps visit [www.gjcity.org](http://www.gjcity.org)

## Truck Routes Why Truck Routes?

Grand Junction/Mesa County is the regional economic center for Western Colorado and Eastern Utah. Trucks are the primary delivery system for the vast majority of consumer goods brought into our community. Locally, trucks provide varied services such as trash pick-up, construction of roads, schools, businesses and homes.

Trucks share the roads with personal automobiles; however, their size and weight cause drivers and pedestrians concern about potential hazards.

To address these concerns, a comprehensive plan was developed to identify a network of truck routes to support safe and efficient truck operations while satisfying the public need for adequate protection and separation.

## Objectives of the Truck Route System

In order to provide for the safe, effective and efficient movement of goods and services within and through the urban area, the truck route system was developed to:

- Provide efficient access to commercial areas.
- Direct truck movement to the major arterial system.
- Minimize the intrusion of large trucks into residential areas.
- Promote safety and improvement of traffic operations.
- Protect the environment and community.

### Historic District

The 7th Street Historic District, located on 7th Street between Teller Avenue and White Avenue, is of great value to the community. Please refrain from using this section of 7th Street except for pickups and deliveries in the area.
