Rules:

- All content must be appropriate for all ages, and may not contain any tag crew affiliation, monikers, gang affiliation, foul language, or any other inappropriate content.
- Mural must fill the entire skate park, including flat surfaces with no blank space remaining upon completion.
- Parks and Recreation will power wash the skate park prior to painting but will not paint over the existing murals. You will be responsible for any base coats, continued sweeping/maintenance needs during painting of mural.
- Parks and Recreation will put up closure signs, send out a press release, and work with the skate community to inform users of the closure. Unfortunately, there will be no fences up during painting. However, during other mural paintings the skate park users were accommodating and refrained from skating during painting. Please note people will use the park when you leave for the day, so if paint is still wet, you would need to stay on site until your paint is dry to prevent damage.
- Partial murals or accumulation of several murals will not be considered. Please see the examples below, and the link or QR code to better understand what we mean by "Full Cohesive Mural"
